## Welcome to the jjgiftsplus Update!

*Thank you for taking the time to read our newsletter this month. Once again we apologize for the tardiness of the update.*

*It has been a very eventful and sometimes frustrating few weeks*

*Many shipments we were expecting after Christmas have not materialized*

*Problems in the economy have has a worldwide impact that includes many*

*manufacturers right on down to distributors.*

*Also, our main supplier changed ownership and were left with a less than adequate commitment to manufacturers for annual inventory requirements.*

*Incoming stock is spotty at best. Cast iron shipments are now expected in April. Enesco is supplying Jim Shore and Kitchen Fairies as inventory becomes available.*

*Lack of Enesco products affects all of us the most as their product line continues to be a favorite.*

*They are in the process of "catching up" with our inventory needs.*

*We have no definite delivery estimate for the glass products or other collectibles currently out of stock. As soon as we do they will be posted on our website newsletter page.*

## A New Information Website

*Another new website is under construction.*

Go to [jjgiftsplus.info](http://jjgiftsplus.info)

*This site will be the host to our newsletter archives, company summary and special announcements. We like to think of it as our one stop summary shop.*

*For the moment the info website will only consist of five pages.*

➤ *Welcome Page*

➤ *.jjgiftsplus Group (list of assets and web addresses).*

➤ *Newsletter Page*  
*Current and archived newsletters.*

➤ *Affiliate Ad Page.*  
*This will contain many of our trusted associates and affiliates. Additional free ad space is offered. All text and banner ads must be approved by our staff. and will be placed at our sole discretion.*

➤ *Contact Us Page*

*We have not abandoned our Sounding Board forum site at [jjgiftsplus.org](http://jjgiftsplus.org) as an information and help center.*

*It has not been given the priority we hoped it would due to our current level of commitment in other areas local and online.*

*Take a look as we load content and the design takes shape.*

# What's NEW?

Hottest Affiliate Reseller Program on the Net!

### You Have Got to See This!

The Australia Virtual Mall is currently open and by installing their [virtual software package](#) you can create your visitor status and check the mall out.

Visit the Skynet Virtual Systems homepage for more information: <http://skynetvirtualsystems.com.au/index.htm>

A Virtual Shopping Mall for the U.S., Mall Americana©, is under design that will be both a shopping mall and a social networking site. Plans are to offer conference rooms and halls. Framed ad displays will be offered to promote your online or offline ventures. Choose from image, slideshow, or video formats. Mall Americana© information page can be found by visiting <http://www.themallamericana.com> This project also brought to you by Skynet Virtual Systems.

The overall potential of the venture is mind boggling to say the least. Dependant on the store owners desires you can shop and purchase without ever leaving the mall while interacting by text or voice with other mall patrons. Store owners can elect to be "on site" and answer your questions in "real time". For retailers big or small can have real time exposure 24/7 without the added expense of the real world "brick and mortar" store front. He, none of those shoplifter worries as well!

**So take the time to check out the LIVE Australia Mall now! You will be glad you did! And don't forget to get more information on the upcoming Mall Americana as well. If you have any friends or colleagues that would be interested in this kind of venture, please pass it along. This is a long term project that has been in the works for several years, and is now becoming a reality. A Virtual Reality that is!**
